

# RONCÚS

## Merlot

Indicazione Geografica Tipica – Venezia Giulia\*

An international black grape variety originating in Bordeaux. The wines produced from Merlot are smooth, intense and have a deep ruby colour that becomes garnet with ageing.

### Composition

100% Merlot

### Vineyard

Capriva del Friuli and Cormons - Gorizia, Friuli Venezia Giulia

### Soil

Grown on hills with marlstone rich, and on plains in shallow stony, soils.

### Viticulture

Organic grassed vineyards, manually harvested at the start of October.

### Winemaking

Destemming, ten days for maceration of the skins, spontaneous fermentation with native yeasts at 28° C. to complete malolactic fermentation.

### Ageing

Aged in 20 hectolitre stainless steel tanks and oak barrels for ten months.

### Bottling

Bottled in summer using non-sterile filtration.

\*Indicazione Geografica Tipica (IGT) is an official Italian wine classification. It specifies the geographic area of production and indicates its making follows the standards of that area.
